

WE WANT TO KNOW:

# WHAT IS PECO DOING FOR COATESVILLE?

PECO **could** invest in local communities, create thousands of new, well-paying jobs, and fight climate change through community based solar technology.

**Instead**, PECO raises rates, continues to use **outdated technology**, and **pollutes** the air, creating local health problems.

Come learn about the **Power Local Green Jobs campaign** and insist that PECO commit to an **open and democratic process** to decide where and how to purchase electricity and **listen to its customers**.

# JOIN US TO DEMAND THAT PECO DO BETTER!

TUESDAY, JULY 16  
3:30 PM

Meet at N. Caln entrance of  
**Caln Plaza Shopping Center**,  
(near the ReStore)

Then we will walk about 5  
minutes to Exelon PowerLabs  
at **157 N. Caln Road**.

Email questions to:  
**INFO@EQAT.ORG**

EARTH QUAKER ACTION TEAM

**POWER**

POWER LOCAL  
GREEN JOBS IS A  
CAMPAIGN COMMITTED  
TO HOLDING PECO  
ACCOUNTABLE TO  
ITS CUSTOMERS

We've been campaigning to **have PECO purchase 20% local solar by 2025**, starting in communities with the highest rates of unemployment so that the **jobs and wealth go first to those needing them most.**

Join us to learn about the possibilities—the imperative—for PECO to become the leader we need. **PECO must take the lead** in using our bountiful natural resource, sunshine, to achieve **green energy for our region** and **bring solar jobs to the community.**
